

If you're a Reiki Master, or ready for Level 3 initiation . . .

Would you like to learn:

- What Mikao Usui himself taught (before it was even called Reiki)?
- Why the Reiki Principles are the most important single element of our practice?
- The true story of Usui's experience on Mount Kurama?
- Where the Reiki symbols really came from, and why they became a part of Reiki at all?
- What Usui taught, instead of symbols, to all but his very final students?
- The method of energetic empowerment used by Usui, and how it devolved into the modern Attunement?

You can learn all this and more in a 2-day workshop with Don Beckett, author of [Reiki, The True Story](#). Don has been practicing Reiki since 1991 and teaching since 1999. Through his website [johreiki.net](#) he has informed thousands of people about Reiki, and initiated and trained hundreds. He has also taught in Bali, Serbia, Romania, Turkey, and Italy, as well as the U.S.

This 2-day workshop will encompass Reiki levels 1, 2, and 3 (*Shoden, Okuden, Shinpiden*) – presenting a very different understanding of Reiki than what was taught by Hayashi and Takata. Energetic empowerments and certificates will be given for all 3 levels – plus a Reiju (empowerment) manual (and we will practice giving each other Reiju) and a copy of [Reiki, The True Story](#).
